PROFESSIONAL SUMMARY

AI & Data Science graduate with hands-on experience in data cleaning, statistical analysis, data visualization, dashboard development, and BI reporting using Python, SQL, Excel, and Power BI. Skilled in transforming raw data into actionable insights through trend analysis, KPI tracking, and data-driven decision-making. Seeking an entry-level Data Analyst position.

EDUCATION

B.E. – Artificial Intelligence & Data Science

Vinayaka Mission Kirupanandha Variyar Engineering College CGPA: 8.17 2022-2026

Higher Secondary – Bharathi Balamandir Matric Hr. Sec. School 79.5% 2022

Secondary – Bharathi Balamandir Matric Hr. Sec. School 70.4% 2020

TECHNICAL SKILLS

Programming: Python

Databases: SQL

Tools: Excel, Power BI

Libraries: Pandas, NumPy, Seaborn, Matplotlib, Scikit-learn, Streamlit

Analytics: Data Cleaning, Validation, EDA, Statistical Analysis, Data Visualization, Trend Analysis, KPI Reporting, BI, Hypothesis Testing.

INTERSHIP

Data Analytics Intern – Gateway Software Pvt Ltd 3 Months (2025)

- Improved reporting accuracy by performing data cleaning, validation, and preprocessing on real-world datasets using Excel, SQL, and Python.
- Generated business insights through EDA, statistical analysis, and trend analysis on operational datasets.
- Developed interactive Power BI dashboards and analytical reports; applied ETL processes for BI reporting.

PROJECTS

Prediction & Analysis of Crime Hotspot Using Machine Learning Python, Streamlit, Scikit-learn, Pandas

Interactive crime analysis system using Random Forest, Gradient Boosting & KMeans clustering with geospatial visualization and real-time prediction.

Sales Data Analysis Dashboard Python, Streamlit, Pandas, Matplotlib, Seaborn

Interactive sales analytics dashboard with data cleaning, trend analysis, and visualizations for sales performance, profit distribution, and key business metrics.

A/B and Business Experiment Analysis Python, Streamlit, Pandas, Matplotlib

Business experiment analysis dashboard for A/B test evaluation: conversion rate analysis, hypothesis testing, KPI tracking, trend visualization, and interactive reporting.

CERTIFICATIONS

- Data Analytics Course – Gateway Software Pvt Ltd (Excel, SQL, Python, Power BI) (2026)
- Power BI Online Training – Techvolt Software Pvt Ltd (2025)
- Python for Data Science – Infosys Springboard (2023)
- Natural Language Processing using Python – Infosys Springboard (2023)

ACHIEVEMENT

Presented paper "Appointment Scheduling Application" at a National Level Conference, Vinayaka Mission's Arts and Science College, Salem.
